PROJECTS

1.College Website

- In this project, we used html as a   frontend is the static website.

2. Title: Hospital Management System

Hospital Management System is a Windows Application and it is developing in C#.Net and for databases using SQL server.

   This application is usable for Hospitals where they can manage the hospital major activity like,

1.Creating/deleting users(Doctor, Nurse, Ward boy etc.)

2.Creatingasection/ward(General ward, OT etc.)

3.PatientRegistration

4.Billing

5.ReportGeneration

6.SearchPatient

7.ViewDischargedRecord

3. Online Solapur Nursery Website

   This website created using Front-end Asp.net Back-end Sql (2019) This Project is to describe about Nursery of various plants which are suitable for Solapur whether condition.

   We mostly deal in organic planting which is eco-friendly and protects environment and health.
